

Quick and Easy Pocket Card great for gift giving any time of the year

To create the card base you will need a full sheet of A4 cardstock (Letter Sized cardstock if in USA)

Scoring and Cutting Instructions for Base Card

Blue Dotted Line = score
Red/Orange Solid Line = cut

Be sure to burnish all of the scored lines well.

Fold-up the point so that it is inside the card and then close the card. Burnish all the folds well to ensure that the card is square and all corners and edges line up. You will need to do this a few times through the process of making the card.

Cutting Instructions for double-sided paper and other cardstock

- Double-sided Paper - 3 lots of 10.0 x 14.4 cm or 3-15/16 x 5-11/16" (4" x 5-1/4" USA)
 - Take two of these pieces and with both in portrait format, cut as follows
 - One piece - Top left corner to the bottom right corner to create two triangles
 - Other piece - Top right corner to the bottom left corner to create two triangles
 - With the bottom point of the card base folded up into the card, glue a triangle either side of the crease line that goes down the centre. The two triangles will create a larger one.
 - The third piece of double-sided paper is to decorate the front of the card
- Basic White cardstock – 2 lots of 10.0 x 14.4 cm or 3-15/16 x 5-11/16" (4" x 5-1/4")
 - Glue one to each to the inside panels
 - Please note that if you don't wish to add a note card, you may want to stamp on the white panel that will be fixed to the right-hand side before it is glued in

Adhering point to create pockets

- With the point unfolded from the inside of the card, apply adhesive both sides of the scored line. You can use Tear & Take or a thin bead of glue.
- Fold up the point, ensuring that it centres on the score line going down the middle of the card.
- Close card and burnish all the folds.

Optional Notecard for inside the right-hand side pocket

- Cardstock same colour as card base – 8.0 x 12.9 cm or 3-1/8" x 5-1/16" (3-1/4" x 4-3/4" USA)
- Cardstock in a colour to coordinate – 7.5 x 12.4 cm or 2-15/16" x 4-7/8" (3" x 4-1/2" USA)
- Basic White cardstock – 7.0 x 11.9 cm or 2-3/4" x 4-11/16" (2-3/4" x 4-1/4" USA)

Stamp image and or sentiment onto the Basic White cardstock and then layer with the other cardstock.

Decorating the front of the pocket card

- Use ribbon or a belly band to hold the card closed.
- If using ribbon, be sure to adhere it to the card front before you add the double-sided paper.
- Use stamps and dies to create a focal point for your card front.
